Our DJs dynamically and interactively read the dancefloor all night to play the right tracks at the right time, seamlessly blending these for every generation and culture. Generic we are not!

“Mark, you are officially the best DJ in the world. All our guests say so, including those that wished they knew about you before they married, themselves! Your work in MCing throughout the day was invaluable, and your versatility and ability to read the room is magic. We are so lucky to have found you. So many of our guests said that the day was perfect and the best wedding they had ever been to - that's all down to you. Thank you so much.”

“From the moment Mark took the time to come to our house to discuss our wedding and to find out what we wanted on our wedding day we knew he was our DJ. Apart from the amazing customer service through-out, great setup, and speaking with all the wedding suppliers on the day to ensure it all ran smoothly, he played fantastic music and kept everyone dancing all night with music genres to suit everyone - even our 80+ grandparents stayed until the early hours. The light set up looked great. We would recommend you to anyone for their wedding.”
